BLACK : COLOR : WHITE

Colors in Kato Polyclay line have solid outlines.

EXAMPLE 1: Color B3 MAG is our standard Magenta Kato Polyclay Item# 12204.

Dashed outlines indicate intermediate colors and contain formulas for mixing.

EXAMPLE 2: Color C3 RED/MAG is an intermediate color located between Red and Magenta. The formula for this color is 1 part Red to 4 parts Magenta. Tints and shades for the C column colors are mixtures of this color together with Black or White.

Three part formulas indicate parts Black to Color to White.

EXAMPLE 3: Shades are made by adding Black to a Color. To make color F2 (a shade of Orange) mix 1 part Black to 4 parts Orange to 0 parts White, as indicated by the formula 1:4:0

EXAMPLE 4: Tints are made by adding White to a Color. To make color F8 (a tint of Orange) mix 0 parts Black, to 1 part Orange to 8 parts White as indicated by the formula 0:1:8

Gray Scale Mixtures are made by the formula of parts Black to parts White.

EXAMPLE 5: Gray Q6 is made by mixing 1 part Black with 4 parts White as indicated by the formula 1:4

1:4
