# Custom Name Stamps

These stamps have been designed with polymer clay artists in mind.

Your stamps will arrive in a strip like the one seen below.

The translucent photo polymer allows you to easily see exactly where you are stamping.

The strip can easily be cut apart so that each stamp can be used in small spaces.

Easy to impress with your finger or a flat tool.

Of course, you can always use your stamps in the traditional sense with paint or ink.

This image will help you to visualize the sizes.

The designs range in size from approximately 10 mm-17 mm

# Custom Name Stamps

In addition to the "Created by" stamp, you will get your name and/or initials 7 different ways.

I have pre-selected the fonts and I will do my best to decide what names/initials look best in what design.

**Please use the drop down menu on the website to select.**

**The choices are:**

- 1. Initials only:** BSS
- 2. Your first and last name:** Betty Smith
- 3. Up to 3 of your names:** Betty Sue Smith
- 4. A combination of all of the above**

In the "note" section of the order, let me know the names and or initials to use. I will send you a proof for approval before going ahead.

Each order is for one person's name/initials only.

**What if my name is really long?**

Each design is about the size of a dime (or smaller) and it may not be able to accommodate lengthy names.

If I have any difficulties, I will contact you and together we will agree upon a solution.

A proof will be emailed for final approval.

# Lot's of ways to use your Custom Name Stamps

Highlight it with Gilders paste or mica powder to make your name stand out!

Press the stamp directly into your project before baking.

I often make up a bunch at a time on thinly sheeted clay. I colour them with mica powders, PanPastels, Gilder's Paste etc. and bake them for later use. When I'm ready to use one, I attach it to my work with a drop of liquid clay before re-baking.

# Why Choose Our Custom Name Stamps?

The thin photo-polymer is flexible, so you can use your stamps on curves.

Stamps made of Photo-polymer can hold the fine detail necessary when working on a small scale.

Being made of translucent photo-polymer allows for precise placement of your name.

Created by a polymer clay artist specifically for other polymer clay artists.

Unmounted stamps have the ability to fit into tight spaces when needed.

You don't just get 1 personalized stamp, you get 7!  
Plus "Created by" to use alongside your name stamp when desired.

They are made from the same material as the CaBezels so I know they will last for many years without losing any detail.
